Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed 101 and 112 rejections and agreed on changes that would overcome the previous rejection. Discussed claims 1 and 14. Two limitations are proposed that distinguish the claimed invention from the prior art. Specifically, applicant's representative adding the limitation of processing data from the peripheral module without sending the data through the protocol stack and further defining deactivation of requests to require the requests to be in a protocol stack. Further search and reconsideration are required.
